

Easy to Install

With a unique and distinctive black-over-blue design, EZ-Flash is composed of a printed poly film that is laminated with a rubber-modified asphalt adhesive. It offers factory-controlled uniformity with a quick-and-easy, peel-and-stick application. EZ-Flash can easily be applied to horizontal or vertical surfaces and conforms to every angle. The ease and speed of installation offers you a time-saving solution for all of your flashing needs.

EZ-Flash®:
Self-adhering Flashing for
Windows, Doors, Decks & More

About Carlisle Residential

As a division of Carlisle Construction Materials, Carlisle Residential manufactures premium construction products for steep-slope and low-slope residential and commercial applications.

EZ-Flash Self-Adhering Flashing

EZ-Flash is an economical 23-mil self-adhering flashing that has a wide variety of applications including:

- Flashing windows and doors
- Sealing wall sheathing joints
- Finishing roofing details under self-adhesive cap sheets on low-slope roof applications
- Deck flashing applications

EZ-Flash is an excellent energy-efficient choice to offer your customers. This self-adhering flashing exhibits a tenacious grip when pressed against the substrate and provides excellent moisture and air leakage protection around openings and over joints/cracks and similar details.

Why Choose EZ-Flash?

- Seals around fasteners and penetrations to prevent leaks
- Simple peel-and-stick application saves time and labor
- Resists mechanical damage
- Easy to install, inspect and repair
- Can be installed on concrete, masonry, gypsum, steel and wood substrates
- Adhesives and primers available for enhanced adhesion

EZ-Flash Offers Your Customers Increased Energy Efficiency

EZ-Flash increases a building's thermal performance and reduces moisture-related problems by forming a watertight seal and providing a smooth drainage plane. Increased thermal performance can lead to a reduction in the amount of energy used to heat and cool the building, thus saving utility costs for the owner.

EZ-Flash Rolls are Available in the Following Sizes:

- 4" x 100'
- 6" x 100'
- 9" x 100'
- 12" x 100'
